**You Won...but all we get are Lost.**

## **Description/Bug Report**

Regardless if we win or lose, the point system on losses is the only one that increases

## **Steps to reproduce/Piece of documentation**

- 1- Go to <http://localhost:3000>
- 2- Duel between your's and the cpu's droids
- 3- Win some matches
- 4- Notice as losses goes up regardless of your wins

## **Expected Result/Test case**

- Code in a way for wins to increase its integer

## **Actual Result/Test case**

- fix if code so that you won increments up when you win
